

LIVESAFE - SMARTPHONE APP

The LiveSafe smartphone app allows users to connect with emergency responders at the touch of a button: call 911, call Public Safety, text Public Safety within the app, or learn more about the University's emergency procedures under the Pepperdine information tab. Other features include SafeRide, SafeMap, and SafeWalk, a person-to-person virtual security escort. Learn more at <http://emergency.pepperdine.edu/livesafe>.

Road Closures

Due to the limited number of routes in and out of Malibu, road closures have an impact on traffic in the area. Familiarize yourself with the five major routes to the Malibu Campus listed below:

- Las Virgenes/Malibu Canyon accessible from Highway Route 101
- Kanan Road accessible from Highway Route 101
- Pacific Coast Highway (PCH) north of the Malibu Campus
- Pacific Coast Highway (PCH) south of the Malibu Campus
- Topanga Canyon to PCH south of the Malibu Campus.

Routes to the Malibu campus are shown at: <http://tinyurl.com/ygasz9j>

Pepperdine's Southern California campuses are shown at: <http://tinyurl.com/yzk72mv>

EMERGENCY COMMUNICATIONS

Reporting an Emergency

At all domestic University campuses, call 911. Then call the Department of Public Safety at (310) 506-4441.

University Emergency Notifications

Everbridge is the University's emergency mass notification system which allows Pepperdine to send text messages, e-mails, and voice messages to faculty, staff, and student cell, office, and home phones. The system is only used during emergencies and for testing and is dependent on the personal contact information provided by each individual in the WaveNet portal.

Emergency Information Page

The University's Emergency Information Page, <http://emergency.pepperdine.edu>, functions as a blog during emergencies, with the latest updates and decisions posted by the University's Emergency Operations Committee. These updates could include class cancellations, campus closures, and any instructions to the University community.

Emergency Hotline Number: (888) 286-5659

During an emergency, this number is updated with the latest information and decisions of the University's Emergency Operations Committee.

Digital Signage

Emergency alerts are also posted on digital signage at Pepperdine's campuses. Digital signage is also utilized for emergency preparedness purposes to increase awareness among the community.

Other Numbers

Public Safety Business Office (310) 506-4700
Malibu road conditions call (310) 506-ROAD (7623)
To leave anonymous crime tips call (310) 506-7634

DEANS' OFFICES

The Graziadio School: (310) 568-5689
GSEP: (310) 568-5600
School of Public Policy: (310) 506-7490
School of Law: (310) 506-4621
Seaver College: (310) 506-4280

PEPPERDINE UNIVERSITY

PEPPERDINE UNIVERSITY

EMERGENCY PREPAREDNESS RESOURCES

2018-2019

PEPPERDINE UNIVERSITY

INTRODUCTION

It is important for members of the Pepperdine community to be aware of the many resources the University has available regarding emergency preparedness. Part of the on-going preparedness effort is to educate faculty, staff, and students on how to prepare for and respond to emergencies. This brochure highlights a few specific emergency preparedness topics and provides direction on how to learn more about what you can do to enhance your level of personal preparedness.

PERSONAL PREPAREDNESS

Creating a personal disaster plan provides a roadmap to follow during an emergency. Such preparation allows an individual or group to react quickly, calmly, and with an understanding of each member's responsibilities in a potentially chaotic situation.

Learn more: <http://emergency.pepperdine.edu/personal-preparedness/>

EMERGENCY PREPAREDNESS GUIDE

This guide is designed to assist you in responding to emergencies that may impact you while attending classes, working, or residing at one of the University's campuses in Southern California. You are encouraged to read the document and refer to it as needed. The guide is available by logging into WaveNet at <https://wavenet.pepperdine.edu>, and provides further detail about the topics covered in this brochure.

INTERNATIONAL SOS (ISOS)

Pepperdine partners with ISOS, an emergency medical and security services provider, to deliver assistance services to University students, faculty, and staff traveling abroad. Travelers are required to register their travel with ISOS's travel tracker which assists the University in responding to emergencies overseas.

Learn more: <http://emergency.pepperdine.edu/international-sos>.

WILDFIRE

Wildfires or brushfires are uncontrolled, non-structure fires that occur in the wilderness, wildland, or brush. Common causes of wildfires are lightning, improperly discarded cigarettes, and arson. Due to dry conditions, Southern California is particularly vulnerable to wildfires.

Learn more: <http://emergency.pepperdine.edu/brush-fires/>

SHELTER-IN-PLACE

The practice of "sheltering-in-place" involves relocating to a safe location on the premises and remaining there until authorities deem it safe to return to residences or offices. Pepperdine has prepared multiple staging locations with emergency supplies on the Malibu campus. The University uses this procedure during wildfires affecting its Malibu campus because there are a limited number of ways to travel to and from the campus. These roads may be closed, congested, or dangerous as wildfires can travel quickly and change unpredictably.

Learn more: <http://emergency.pepperdine.edu/shelter-in-place/>

REPORTING A THREAT

It is critically important that members of our community report perceived and potential threats in a timely manner. It is better to err on the side of notifying the appropriate individuals than to remain silent. The University has resources with which to assess these situations and the individual of concern. If you believe an individual poses an imminent threat to himself or herself, or a member(s) of the University community, please act accordingly and call the Department of Public Safety at (310) 506-4441.

Learn more: <http://emergency.pepperdine.edu/reporting-a-threat/>

SHOTS FIRED & SAFE PASSAGE VIDEOS

Created by the Center for Personal Protection & Safety and available in WaveNet at <https://wavenet.pepperdine.edu/>, the Shots Fired video provides best practices and tips on how to survive an active shooter situation and the Safe Passage video, provides helpful information for best practices and tips on how to prepare for a trip abroad and travel safety.

EARTHQUAKE

Southern California residents should understand the best practices for surviving an earthquake. If indoors, stay there. Get under a desk or table, or stand in a corner or doorway that does not have doors on it (do not go into a doorway with doors; they can swing back and forth violently.) Protect your head, neck, and face. If outdoors, get into an open area away from trees, buildings, walls, and power lines.
